ARONON VAT DYES are produced by ORGO SYNTH. These dyes belong to the family of anthraquinone and anthracene ketones, which are applied for the dyeing of cotton, linen, rayon and blended fabric materials. ARONON VAT DYES are environmental friendly with dustproof particles with very good water diffusion, uniformity of dispersion and anti- cohesion of suspension. It is particularly applicable to high-speed continuous dyeing and continuous padding with automatic mixing owing to its fast speed of reduction. While it is also suitable for hidden color and suspension dyeing processes in deep-dyeing..

Established in 1976, **ORGO SYNTH** is the only unit manufacturing Vat Dyes from the basic chemicals i.e. Phthalic Anhydride to Anthraquinone to Vat Dyes.

Promoter, Mr S N Jain, a technocrat, has over 50 years of experience in manufacturing Vat Dyes.
